

TAX RATE HERE SET AT 55 MILLS BY CITY COUNCIL

Many By-Laws Are Read at Regular Meeting of City Fathers, Monday

Bylaw 256 fixing the tax rate of the City of Nanaimo at 13.19 mills for school purposes; 17.91 mills for the payment of debts and interest, and 23.90 mills for general purposes, received its third reading at the regular meeting of the Council last night.

Taxes unpaid by July 18, will be penalized by five per cent with an additional five per cent if not paid by Dec. 1.

Public Market Bylaw 520 received its first and second readings and progress was reported upon its third.

The Sinking Fund Bylaw which includes the following provisions, was given its third reading.

Whereas Section 11 of the Municipal Act Amendment Act, 1933, provides that the Council of any municipality may by bylaw with the approval of the majority of the electors of the municipality provide that in the year 1933 it shall not be necessary to levy or raise or provide the full amount of money required by law of the municipality to be provided for sinking fund purposes and determine what amount (if any) shall be levied or raised or provided for those purposes in that year.

Therefore the Municipal Council of the Corporation of the City of Nanaimo, enacts as follows: 1. For the year 1933, no levy whatsoever shall be made for sinking fund purposes other than the levies required by law of the municipality under the Local Improvement Act, 1924. This bylaw may be cited as The Sinking Fund Levy Bylaw No. 530, 1933.

RUSSO JAPANESE WAR INEVITABLE, CHINESE DECLARE

Soviet Troops In Siberia Move on Border; Nipponese Mobilize Troops

REPORT BASELESS?

Peiping May 2.—War clouds are gathering in the Far East, making another Russo-Japanese conflict inevitable, Chinese newspapers here declare in discussing the dispute between Japan and the Soviet authorities over the administration of the Chinese Eastern Railway.

A recent Associated Press dispatch from Tokyo says that a meeting conducted in Tokyo, Changchun and Harbin disclosed reports of Japanese troop concentrations on the Manchurian frontier were baseless. The press office at Tokyo said it knew nothing of any hostile Soviet disposition on the Siberian side of the border.

According to the world Daily News three divisions of the Japanese army are being concentrated in Northern Manchuria, while large bodies of Russian troops in Siberia are moving eastward to the Maritime provinces.

FOUND DECLINES

Canadian dollar was quoted at 85c unchanged. United States premium on Canadian funds remained at 14 1/2 per cent.

The pound sterling declined one cent in quiet trading to \$38 in United States funds.

The Weather

The barometer is rising on the coast and fair weather is becoming general on the Pacific slope. Rain has fallen southward to California and mild weather continues in the States.

Forecast for 24 hours ending at 5 p.m. Wednesday, Nanaimo area: Light to moderate westerly wind generally fair, not much change in temperature.

Weather synopsis for 24 hours ending 9 a.m. May 2: Maximum, 55; minimum, 30; rainfall for past 24 hours, .20.

Wednesday Tides: High water 12:43 a.m. 12:3 feet; 10:28 a.m. 8.6 feet.

Low water: 8 a.m. 8.5 feet; 5:35 p.m. 4.2 feet.

WILL PRESIDENT LEAVE COUNTRY?

Furore Caused in Washington By Report That Roosevelt May Go To Europe

London, May 2.—Dispatches received today by British newspapers from the United States saying President Roosevelt may attend the World Economic Conference, considerably surprised members of the Mission of Norman H. Davis, American ambassador-at-large.

The Washington Government has made an announcement that Mr. Roosevelt intended to go to London.

No American officials in London believe the President was making such a plan, but the special dispatches provided a sensation for afternoon papers.

The Evening News pointed out that there is almost an unwritten law against a president leaving the United States during the term of his office and that the last president to come to Europe was Woodrow Wilson, President Warren Harding, however visited British Columbia on a trip to Alaska which ended in his death.

Mr. MacDonald arrives in London late tomorrow. The regular Wednesday cabinet session has been postponed until Thursday that the Prime Minister will report on his Washington mission.

Washington, May 2.—Officials familiar with President Roosevelt's plan today scouted reports he planned to travel to London for the World Economic Conference.

They manifested belief that while he would follow the developments of the conference closely he would leave the actual participation in the conference to the American delegation. Secretary Hull appears to be his choice for chairman of this delegation.

PEDEN SETS PACE

Toronto, May 2.—Glenn "Tootsy" Peden and his diminutive partner, Jules Auld, having covered 538 miles, eight laps, continuing to set the pace in the six-day paddling competition today, leading the dislodged second placers, Stutz and O'Leary and Parrott and Elder by one lap.

Telegraphers Meet

In Montreal, May 2 Montreal, May 2.—Wires will burn this week in preparation for the opening at Montreal of the annual convention of the Railroad Telegraphers who are coming here from all parts of the United States and Canada for the opening of their sessions May 8.

Rev. W. P. Burr, of the First United Church, returned from Vancouver on his return from the

Nazi Chief Assails Foes of Fatherland

Berlin, May 2.—Chancellor Adolf Hitler, at the first May Day celebration held under his dictatorship, last night launched defiance at foreign nations which, he charged, were aiming to destroy Germany.

He said Germany's inferiority complex had disappeared once and for all, with the "national awakening," and promised that the government would pull Germany out of her slough, in which years of mismanagement had plunged her, by her own accord and by a plan, partly military and partly economic, the details of which he explained.

Hitler Acknowledged

One and a half million Berlin residents named the Nazi dictator as he shouted: "Germany, even if you are not second-rate, people, if the world wants you to be a thousand times!"

Thousand Injured As Southern Tornadoes Wreak Terrific Havoc

Cedar Farmer Fined When Chief Injured By Straying Bull

On charges arising out of injuries sustained by Chief Paul White, of the Nanaimo Indian Reserve, H. Arishaw, Cedar District farmer, was fined \$5 and costs in the local courts yesterday for allowing his bull of six months to run at large. The injuries to Chief Paul were sustained when he attempted to drive the bull, together with a number of cows from his field. The animal attacked him, inflicting wounds which required medical attention.

Mr. Arishaw stated that the bull had broken loose and had strayed away without his knowledge.

EXTENSION GIVEN TO BANK CHARTERS

Act of Government Is Annulled By Liberal Leader at Third Reading

Ottawa, May 2.—In view of the approaching world economic conference the charters of Canadian banks will be extended for another year.

Under the Bank Act the charters are granted for 10 years and would normally expire this year.

Yesterday the House of Commons gave its final reading to the government bill to postpone the general revision of the Bank Act until 1934. The measure was not passed, however, without an airing of varied views on the question of banking and finance.

Opposition members took advantage of the opportunity to plead for controlled inflation and a central bank, and to attack high interest rates. Premier Bennett reaffirmed his belief in a "sound money" policy and said it would be unwise to revise the banking system on the eve of a world gathering which would consider the government to grapple with currency problems. The coming world conference had not prevented the United States from taking action.

WAR IN EAST

Peiping, May 2.—One hundred Chinese were slaughtered when Mohammedan rebels captured Yarkand. All minor districts in the East Turkestan province of Sinkiang, foreign despatches from Kashgar said today.

All foreigners in Yarkand, including Swedish missionaries, are believed to have escaped safely.

HAS PLAN TO SAVE LIFE OF MAHATMA

German Jewess Believes Fast in Sympathy May Save Frail Indian Leader

Poona, India, May 2.—A Jewess, an exile from Germany named Hilda, is said to power, believes she can force Mahatma Gandhi to quit his projected three weeks fast and thus save his life.

The woman, Dr. Margot Spiegel, arrived from Bombay, and yesterday, she said she remained there today despite his arguments.

Her plan is to join him in the fast until he desists to save his life. She has already had a long conversation with the frail Nationalist leader arrived himself. His smiling response to this was that the "age of the untouchables."

GIVENCHY LOADS HERE

The Canadian Government Fisheries Patrol steamer Givenchy docked at the coal wharf this evening. She left again this morning after taking a cargo of coal.

TO OPEN FAIR

Washington, May 2.—President Roosevelt is trying to arrange to get to Chicago to open the world fair there in June; and he also plans to spend most of the summer away from Washington.

Terrific Wind Sweeps Into Louisiana From Arkansas Wreaking Destruction—Negro Quarters Are Flattened.

SHREVEPORT, La., May 2.—A series of mad May Day tornadoes killed at least 81 persons in Arkansas and Louisiana late yesterday, injured more than 1,000 and damaged five towns, including the important city of Minden, La.

The death list at Minden, which bore the brunt of Louisiana's storm, was estimated at 68, including 50 negroes.

Spasmodic tornadoes that lashed the lower Mississippi Valley for two days, left behind at least 89 dead. More than 1,000 injured and a litter of wreckage in cities and rural communities of Louisiana, Arkansas and Mississippi today.

Following on the heels of a week-end blast that claimed eight lives in a blow at Lake White, Ark. and Greenville; and Yazoo City, Miss. May Day storms dined a crazy pattern over Louisiana and Arkansas, and damaged five towns, including the important parish seat of Minden, La.

Minden bore the brunt of the Louisiana storm. Early today the estimate of the deaths was 68 including 50 negroes there, and rescue workers who worked through the night among the ruins feared the total might be higher.

Sweeps Misadventure The storm struck first along the Arkansas-Missouri line. Farm houses were levelled, barns blown off and trees, whipped down. Torrential rains blew in horizontal sheets in sections and many roads were rendered virtually impassable.

The storm, it was reported, struck at 4 p.m. yesterday. Witnesses said it struck the city in a funnel-shaped cloud that roared like a freight train enveloping the community in darkness. Buildings shook and quivered, the loose objects whirled through the streets with the speed of bullets, and houses were levelled and unroofed.

Negroes Suffer The negro quarters were flat and fire broke out. Winds damaged the business section and ripped up communication and power lines. Parts of the residential section were leveled. An auto was blown through a store window near the courthouse. Sam Life, a hardware merchant reported the winds lifted him off his feet as he walked near. Webb's parish courthouse and dropped him on the next hill uninjured after giving him a bird's eye view of the destruction.

Another vital condition to the success of any such arrangement will be the vesting by Congress in President Roosevelt of his authority in respect to the tariff and the tariff rates for the purposes which are superimposed. They also regard the stabilization of exchange as very essential.

In sequence to the conference last week, those who were at Washington brought back the idea that the United States may facilitate the entry to her markets of Canadian cattle and lumber and possibly potatoes but not fish. In return for free access to Canada of American fruits, chemicals, automobile parts, electrical appliances and certain other manufactured products is sought. A reciprocal arrangement in regard to coal also enters into the calculations with the New England states drawing on the Maritime coal mines and the Pacific states on those of British Columbia.

In regard to the metallic basis of the currency, which now calls for 40 per cent of gold reserve, there is a proposal to reduce this to 20 per cent, and perhaps include as well 5 per cent of silver.

In regard to the general results of the Prime Minister's visit there is great satisfaction. It is felt that the various contingencies there far to ensure the success of the world conference and the world recovery, which is hoped for.

So far as closer trade with Canada and the United States is concerned, the degree to which it is possible, is to be explored by experts, but beyond that the statements are surrogated with particular caution.

FINE PROGRAM IS PLANNED FOR 24TH

Many Visitors From Outside Points Expected in This City Victoria Day

A rustic May Queen will be seen in Nanaimo in connection with the big Empire celebration, May 24. It was reported at the Empire Day celebration committee meeting held last evening, Mayor J. Barclay presiding.

Other echoes of the days of Maid Marian and Robin Hood will be seen in the setting for Her Majesty and the costuming of her attendants.

Plans are completed for the May time Ensemble to be held in the Pymby tonight commencing at eight o'clock, to raise funds to advance the Empire Day Celebration.

Such means are necessary this year as the sinking fund is almost depleted and an appeal is being made to citizens to offer any financial assistance they can afford.

MAY EXPORT B.C. COAL TO SOUTH

Premier Plans Reciprocity With U.S.; Mr. Bennett Returns To Ottawa

Ottawa, May 2.—Rt. Hon. R. B. Bennett was back at his office bright and early yesterday after his trip to Washington which may prove to be momentous, and, subsequently, confer with his party supporters in a general caucus. It is understood the Prime Minister outlined his mission to the United States capital and the hopeful prospects which are attendant in sequence to it for the restoration to normal lines of international trade.

Furthermore it appears that a common understanding was arrived at regarding measures for world economic rehabilitation, to be discussed at the World Conference next month in London.

The Prime Minister has not brought back from Washington an agreement for trade with the U. S., and no one expected that he would. What was accomplished consisted of laying the ground work for such an agreement, allowing the experts of the two governments to explore the particular channels in which trade admits of developments and the particular commodities which would be affected.

The conversation at Washington was not fish. In return for free access to Canada of American fruits, chemicals, automobile parts, electrical appliances and certain other manufactured products is sought. A reciprocal arrangement in regard to coal also enters into the calculations with the New England states drawing on the Maritime coal mines and the Pacific states on those of British Columbia.

In regard to the metallic basis of the currency, which now calls for 40 per cent of gold reserve, there is a proposal to reduce this to 20 per cent, and perhaps include as well 5 per cent of silver.

LONDON BATTLES TO GIVE RELIEF TO UNEMPLOYED

"Buy That Others May Buy" Slogan in War To Aid Jobless Army

By George Hamblin Canadian Press Staff Writer, London, May 2.—County Councils are moving in the battle with unemployment.

From some months past municipal authorities have stimulated spend-more campaigns. "Buy that others may buy from you," has become a platform after platform. "Have those buying represent you," has the injunction has run by poster and streamer.

East Grinstead, one of the first local schemes, to report, announces that its unemployment figures have been cut in half, with a similar cut in the amount paid for unemployment relief. The scheme will be continued in its entirety through the summer, for it is necessary, it will be immediately available for the winter.

Work Scheme Now the County Councils are producing schemes. A memorandum on work schemes, approved by the County Councils Association, is to be submitted to the government. The memorandum, suggests that:

(1) As a contribution towards the wages of men for whom work is found, the government should pay 20 shillings per week in respect of those who would otherwise be receiving public assistance.

(2) That these men would therefore be able to purchase at a low figure, not less than 10 shillings per week in respect of those who would otherwise be receiving public assistance.

CONGRESS TO HALT BY NEXT WEEK OF JUNE

Body Assists President in His Desire To Further World Economic Recovery

(By Francis M. Stephenson, Associated Press Staff Writer) Washington, May 2.—President Roosevelt and congressional leaders are combining for a quick wind-up of the extra session of the United States Congress, with the first week in June fixed as the goal.

Already involved in international negotiations to further world recovery, Mr. Roosevelt will be giving attention almost exclusively after June 12 to the London Economic Conference and it is his desire to have the domestic program well rounded by then.

Within a short time the last two of the President's major emergency proposals, road reorganization and a public works program to aid unemployment, will be sent to Capitol Hill. Senator Robinson of Arkansas, the Democratic leader, pointed to the June adjournment last night after a conference with the president, and outlined a preferred calendar of business.

This includes the Tennessee Valley Muscle Shoals Bill now before the Senate; the Home Mortgage Refunding Bill passed by the House; Securities regulation, the railroad and public works measures.

Interests which here last summer received certain phases of the conference agreement are even more prepared to repeat their views when it comes to reopening import trade with the States.

Washington, May 2.—President Roosevelt is seeking reduction of tariffs in trade agreements with Canada, will discover considerable obstacles in the matter of lumber and copper.

L. W. Douglas, director of the Budget, led the fight for a four-cent tariff on copper, Senator C. I. Dill of Washington headed the movement for an increased rate on lumber.

Premier Bennett, it is reported, urged the advisability of eliminating special taxes in his talks at the White House last week.

Mr. Roosevelt's propositions coming down to specific terms, introduced again the prospect of congressmen saying, "Vote vote for my lumber and I'll vote for your oil, coal or copper," the proceeding which resulted in the higher rates in the Hawley-Smoot tariff act as well as the special taxes.

LITTLE RAIN IN MONTH OF APRIL

Lowest and Sunshine Is Brightest in Nanaimo For Many Years.

March winds and April showers bring forth May flowers, but April showers in Nanaimo this year were few and far between as the month just ended has been the driest April for many years.

The precipitation for the first four months of the year has amounted to 1294 inches which is 97 less than the average for the first four months, January to April.

The highest temperature was 68 on the 24th while the lowest was 31 on the 26th. The past month has therefore been practically free from the early Spring frosts in this part of British Columbia, at least in Nanaimo.

COMING WEDNESDAY Richard Barthelmess in 'CABIN IN THE COTTON'

Ballyhoo on Sport

Football still remains uppermost in our minds, although the season is waning, and other sports of a different nature are being played. Perhaps the reason for this is because good baseball in this town, is lacking. However moves underfoot denote that baseball may be gone after in a big way.

Should the City League baseball be revived, a team of worthy caliber may be chosen to compete in Vancouver's Terminal League. At least a dozen performers from this city should be able to make the grade in such a league. Games could be played here Sundays, and Con Jones Park, newly enlarged and equipped for night ball, could be the scene of weekly matches. Let's hope this is not just another pipe dream.

In case it is just talk, a few local boys hope to have berths on Mainland teams. Hank Gailus, wore a Freeman uniform Saturday, when the Western played a league fixture, but did not get in the game in a relief role, because Lefty Kaye, former eccentric southpaw of the Nanaimo nine, pitched a three-hit game. Hank has done some valuable hurling for local squads and it is hoped that he can click in Senior A company.

Just as enthusiastic, but not aiming so high, is Don 'Hay' Old, who patrols the garden for Nanaimo. He is going to the Mainland this week for a trial with the B. & W. Oilers, a Senior B outfit in the Terminal League. If anyone can make good, it will be 'Hay'.

What has happened to last year's City Baseball League? Has it died a natural death, or will it be revived? Rumors are that there are more teams than ever clamoring to play, but cold bare facts show that it is doubtful if it will start. After getting off to such a start last year and after finishing in such a manner, it would be a pity to drop the league now.

Enough for baseball! Local fans watched the Bevis boys turn in another drawn game in their Coast League match. A draw seems to be the favorite Nanaimo verdict. The Royals, Saints, Tigers and Victoria have all returned home with but a single point increase in their standings. Sometimes they should have won on sometimes a loss would have been more in line with their play. However, being a firm non-believer in luck perhaps I may have to change my views after seeing Sunday's contest with the Tigers.

Bombarded from all angles, the Nanaimo chieftain was only forced once. Rhythmic put in a short and rebound which all but broke the team. Still other shots were almost as close, but luck was not with the Saviours. They ran rings around the local team but the best they could do was draw. Incidentally, in seven games in intercity competition, this makes the seventh point for Nanaimo. A pair each of wins and losses and three draws.

Many have hearts lie asleep in the deep, Austin Delaney, blessed with some of the finest football knowledge on the coast, but evidently with also one of the worst tempers on the same coast, is suspended for a couple of months to think over the evil of socking another player. 'Kayo' McGregor, that's his name since Delaney socked him, is perhaps puffed at this, for he won't get a chance to lay into his attacker next time Nanaimo meets the Royals.

This seems to be the trouble with sport. Granting that the heat of the sport, it would be far better for these men to quit the game rather than take a chance of doing something they may regret. A couple of incidents in Sunday's match were quite unbecoming and would be far better forgotten. Better football would result. Let it finish at that.

Nanaimo stands a good chance to hold soccer championships in all its visions, when the Southern Foresters turned in a blazing win at Vancouver, to lift a juvenile champion-ship. Park Rangers stand ready to lift the junior championship of B. C. while Nanaimo City are quite apt to lift the Pacific Coast title as they did last year. 'Supreme in Sport' especially football. That's Nanaimo!

The semi-final match between Lloyd's Pharmacy and Cumberland Wanderers, which will result in the winner playing the Park Rangers for the O. B. Allan Cup, will be played here Saturday, if reports are not amiss. The B. C. final will be staged here the following week, and the

Changed History

On the Canadian page of the 'impression of the Loyalist migration is so deep that it would be difficult to overestimate it,' wrote W. Stewart Wallace, historian. 'It is, no exaggeration to say that the United Empire Loyalists changed the course of the current Canadian history. Before 1783 the clearest observers saw no

HIGH PURPOSE OF LOYALISTS LAUDED

Their Descendants Have Played Proud Part in Scheme of Things Canadian

Saint John, N.B., May 2 (C.P.)—When Saint John in particular, and New Brunswick generally, pay tribute to the United Empire Loyalists on May 18, the sesqui-centennial anniversary of their landing here, the occasion will recall a people whose descendants exercised a powerful influence on the political, material and intellectual development of Canada.

The Loyalists, whose continued allegiance to the Crown made life unbearable for them in the new United States, comprised a great many of the cultured and wealthy men and women in the old colonies. When the revolution broke out they represented at least a third of the population. Their honesty of purpose, and integrity, was acknowledged by historians as among qualities resulting in firm foundations during Canada's early growth.

Local graduates and former high officials were included in the migration to British territory. In New England, the Episcopal clergy were steadfast in their loyalty to the King. There was also a large loyal element in the lumber walks of life. It was found in the farmers of New England, the Quakers of Pennsylvania and the negroes of South Carolina and Georgia.

Those occupying official positions at the beginning of war naturally took the side of authority. Their indignation increased as they found their places filled by men of inferior social position and less wealth, education and culture. Despite their ideas of prerogative, however, the old Loyalists in general are conceded to have been men of upright character, staunchly adhering to their principles and willing to make great sacrifices for the preservation of a united British Empire.

Changed History 'On the Canadian page of the impression of the Loyalist migration is so deep that it would be difficult to overestimate it,' wrote W. Stewart Wallace, historian. 'It is, no exaggeration to say that the United Empire Loyalists changed the course of the current Canadian history. Before 1783 the clearest observers saw no

BREAK THE CHAINS OF HABIT BUYING!

Try all good cars—then CHOOSE

Do not compare your old car with a new one . . . Any new car will give you a thrill . . . This is Demonstration Week and your opportunity to compare the new cars one with another . . . The car you purchased a few years ago is useless as a measuring rod . . . To

day's car of the same make may be much better than the old one . . . Yet may be far short of what you can obtain for your money . . . Chrysler, Plymouth, Dodge, De Soto Dealers invite you to drive all good cars . . . Get behind the wheel of a Chrysler, Plymouth, Dodge or De Soto . . . Then COMPARE.

Features to look for—

- Floating Power Engine Mountings . . . Hydraulic Brakes with Centrifuge Drums . . . All-Steel Body . . . Double-Drop X Type Girder-Truss Frame . . . Oilite Springs . . . Silent U Spring Shackles . . . Automatic Clutch and Improved Free Wheeling . . . Hardened Steel Valve Seat Inserts . . . Easy-Shift Transmission . . . Down-Draft Carburetor . . . Air Cleaner and Intake Silence . . . Removable-Precision Fit Main Bearings . . . 2 Universal Joints With Needle Bearing . . . Full Pressure Lubrication . . . Oil Filter and Crankcase Ventilator . . . Shockless Steering . . . Silent Timing Gear Chain . . . Alloy Pistons . . . Fuel Pump with Air-Dome . . . Hydraulic Shock Absorbers . . . Ball-Bearing Clutch Release . . . Acceleration Pump on Carburetor . . . Ball and Roller Transmission Bearings . . . Shock-Absorbing Clutch-Dial . . . Roller Bearings in Steering-Gear . . . One-Piece Double-Bracket Fenders . . . Duplate Safety Glass Windshields.

Even in the adjoining Republic history has begun to do the Loyalists justice. Their merits and sacrifices are acknowledged by impartial students of history in the United States. The late Professor Coit Tyler, of Cornell University, said his opinion was 'That the side of the Loyalists, as they called themselves, of the Tories, as they were scornfully nicknamed by their opponents, was in argument not a weak one; and in

Costa Rica has approximately 9000 unemployed in a population of nearly 700,000 according to a census made before the coffee harvest began. It is estimated there were 17,720 saloons, 7000 breweries and 236 distilleries in the United States before prohibition. According to a recent report of the State crime problems committee, the per capita cost of crime in California is \$1.96.

British Government To Clean Up Slums In Five Years

LONDON, May 2 (C.P.)—The British Government visualizes the clearing of all slum areas in the United Kingdom by 1938 at the latest, according to an official statement from Whitehall. The slogan is: 'Sweep away the slums, give proper housing to the displaced people, make it easy for them to live in decent homes—and do it quickly.'

This declaration of ultimatum is regarded as being the beginning of the biggest war on slums undertaken for 100 years. The whole forces of the Government are to be thrust into the campaign. Local authorities are to be bombarded by the Ministry of Health until they produce schemes. These will be passed by the authorities with the utmost speed and they should begin on many of these plans within a very short time. The ultimatum has taken the form of a circular from the Minister of Health to all housing authorities in England and Wales.

In the view of the Government, the present rate at which the slums are being dealt with is too slow and they look for a concerted effort between the central government and the local authorities immediately concerned to ensure a speedier end to the evil, and an end within a limited time.

The world production of gold during 1932 created a new record, 25,011,000 fine ounces, valued at \$494,240,370 having been mined.

You'd like the ROBINSONS

They're the kind of people it's nice to have as neighbors. They always seem to have such a good time together. Their home isn't large, but it's furnished in excellent taste; everything fits perfectly, as though it had been made especially for the very space it occupies.

And their dinners are charming. Not expensive, but different . . . new and interesting dishes that other people haven't heard of yet. Mrs. Robinson dresses beautifully, too. Her clothes have that air of coming straight from Paris, yet she doesn't spend much on them.

If you should ask her how it is she manages things so well, Mrs. Robinson would smile and say, 'It's really very simple. We budget our income. That tells us how much money we have to spend. And we read the advertisements. That tells us how to spend our money wisely.'
