OTTAWA BELIEF IN UPON GOLD TAX

Possible That Some Plan May Be Made To Modify New Impost

MARKETING BILL

Ottawa, April 30—Hon. H. H. Stevens, Minister of Trade and Commerce today resumed the debate on the Budget in the House of Commons.

Dealing with the speech of Hon. J. L. Ralston, chief Opposition critic, Mr. Stevens declared it contained nothing of a constructive nature.

Ottawa, April 30—Parliamentarians look forward to a measure of variety this week with daily devoted to the Budget debate and the prospect of a vote on the Marketing Bill tomorrow.

Today will be the second day of the Budget debate which began last Monday when Hon. J. L. Ralston, chief Liberal financial critic, led off with a critical analysis of the annual presentation of income and expenditures past and prospective by Hon. E. N. Rhodes, Minister of Finance.

Later the government may introduce some further new measures, including the one designed to reduce farmers' debts.

Speculation continues as to what, if any, changes the government will make in the 1934-35 budget which is understood a plan to modify it in some important particulars is now being discussed between the government and representatives of the gold-mining interests.

Despite the protests against the tax the government is believed to be firm in its intention to secure a revenue of \$10,000,000 from gold.

Mr. Plunkett said that the present station, CFCT, with license from the Commission, but its service had not been altogether satisfactory.

SPECIAL POWERS ACT "FASCISM"

—E. WINCH

Burnaby Member Takes Depressing View of Future Under Present System

Mr. Ernest E. Winch, Burnaby M. L. A., addressed a C. C. F. public meeting in the Foresters' Hall last evening.

One of the most disappointing six weeks I ever spent, Mr. Winch characterized the period in the House at Victoria. "We seven, sandwiched between the rest, wondered how they came to be elected as representatives of the people during a period such as this. One of our viewpoints, who understands our own position, said there were not three on the floor of the House who had the slightest understanding of what we were talking about."

Outside of their own particular business interests they have absolutely no understanding of our social problems. Any 48 out of any gathering of members of the working class would take a declaration of Fascism, with the assurance that they would have a better understanding of the fundamental principles of the program than the 15,000 random demand to meet the \$15,000 ransom when the contact is arranged.

Mr. Winch sketched the activities of the House and offered each food for thought in the material he presented. One very worthy of mention was an excerpt from the "Report on Medical Inspection of Schools" by H. E. Young, Provincial Health Officer, presented Nov. 30, 1933, from which he quoted as follows:

"It is most surprising feature during the past year has been the absence of epidemic disease not only in British Columbia, but throughout the North American continent. This fact is worthy of note in the face of the economic depression is hardly to be expected."

"And again, as in our last report, we want to urge all governing bodies to seriously consider before there is any further curtailment of expenditure for health-work. In fact, the work of the health department is being curtailed in order to guard against the almost certainty of the effects of malnutrition becoming evident."

"We are producing a nation of degenerates," said Mr. Winch. "Youth of 2000, he said, "will be a nation of degenerates. We are producing a nation of degenerates. Youth of 2000, he said, "will be a nation of degenerates. We are producing a nation of degenerates. Youth of 2000, he said, "will be a nation of degenerates."

At Nantes Mob of 2,000 Battle Police For Five Hours

REBELLION FEARED

Paris, April 30—The government of France sped today the biggest mobilization of arm forces since the Great War to smash uprising feared in a May Day general strike.

Premier Gaston Doumergue took a grave view of the situation. He warned rebellion might lead to "foreign invasion." He was determined to crush any revolutionary movements at the outset.

A hint of what might be expected tomorrow as seen at Nantes, 60 miles from Paris, during the night when 2,000 storm-trooping "Anti-Fascists" battled police for five hours in the streets. Windows were smashed and riotous and newspaper offices damaged.

Rioting broke out following the defeat of the "Anti-Fascists" championed by Roger St. Paul, Mayor of Nantes, in a by-election for a seat in the Chamber of Deputies.

Royal partisans clashed as soon as the result was announced. Rioting spread and flared in hand-to-hand battles.

Police, using a truck as a tank, the main body of the fighting throng broke a police cordon and occupied the principal square of the city, holding out under police reinforcement and rain continued to drive them from their rallying point.

Additional police were ordered to Nantes today to guard against a renewal of the outbreaks.

APPEAL IS MADE TO ROBBER ABDUCTORS

Grandfather of Missing Child Returns; Money Held In Readiness

Tucson, Ariz., April 30—Bernabe Robles, aged grandfather of the kidnapped Juan Robles, declared today that he would take a ransom of \$15,000, with the assurance that they would have a better understanding of the fundamental principles of the program than the 15,000 random demand to meet the \$15,000 ransom when the contact is arranged.

Tucson, April 30—Two governments sent crack agents on the hunt for little Juan Robles kidnap victim, today, and for her 73-year-old grandfather who has mysteriously disappeared.

Bernabe Robles, the grandfather, left last night with two companions for Mexico, presumably to establish contact with the kidnapers, and perhaps pay the ransom of \$15,000 which has been demanded for the child's return.

The paper said an American Jewish relief organization was prepared to contribute \$100,000 for the ransom. Sponsors of the plan aim ultimately to establish an autonomous Jewish state in Angola under the protection of the League of Nations.

Toronto, April 30—Joe Wright Jr. helped his brother-in-law, Ernest Wright, escape from an internal hemorrhage, was given a fourth blood transfusion today.

Doctors were cheered today when it was found Wright slept for two hours last night without being given opiates.

Five Miners Killed in Leigh Pit Blast

Leigh, England, April 30—Five miners were known to have been killed, five more were reported to have been injured in an explosion which wrecked a mine while a full shift was working today.

The same colliery was the scene of an accident in 1932 in which 15 men were killed by a falling cage.

Three hundred men had gone down to work just before the explosion happened. A great many escaped by other shafts but pending a complete check it was not known how many were missing.

Five hours afterwards, were identified as those of William, Joseph and George Belshaw, brothers, of Bickershaw; J. W. Ormsah of Wigan and a boy named Ratcliffe, of Leigh.

SWINDLER SOUGHT IN BREMER CASE

"Boss" McLaughlin Admits Handling Half Million Ransom Money

Chicago, April 30—John J. "Boss" McLaughlin confessed handling \$500,000 in ransom money collected from Edward Bremer, St. Paul banker, the federal Bureau of Investigation disclosed today.

Chicago, April 30—A master swindler was sought by federal agents today in a fresh angle of the search for kidnapers of Edward G. Bremer, St. Paul banker.

The hunted "master mind" was reported to have duped a friend of Bremer out of \$300,000 in the old lake horse setting. Agents declined to reveal the identity of either men.

The victim, reputed to be a St. Paul contractor, was recorded simply as "Mr. W."

Five other men are being held—four charged with conspiracy to obtain ransom money in the Bremer case. The federal agents are looking for further arrests in the case, fearing others who might talk would be "slenched."

The five held are John J. "Boss" McLaughlin, former Illinois legislator; his son, John Jr.; William Vidler, ex-convict, arrested with \$2,000 of the Bremer cash in his pocket last week, and two others, as yet unidentified.

Victorian Pianist Found by Police In Terminal City

Jews May Settle Portuguese Colony

London, April 30—The Herald says it was learned the Portuguese Government has approved in principle of a long-discussed plan for a large-scale Jewish settlement in Angola, Congo or West Africa.

The paper said an American Jewish relief organization was prepared to contribute \$100,000 for the ransom. Sponsors of the plan aim ultimately to establish an autonomous Jewish state in Angola under the protection of the League of Nations.

WRIGHT SLEEPING

Toronto, April 30—Joe Wright Jr. helped his brother-in-law, Ernest Wright, escape from an internal hemorrhage, was given a fourth blood transfusion today.

Wright, former holder of the diamond scull, was taken ill last week and has now received four transfusions. Ernest Wright, of Argonaut Rowing Club, was the donor today.

Japan Will Stand By Open Door Principle Britain Is Informed

Government Will Drop Matter of Nipponese Declaration of Last Week

TOKIO SILENT

(By George Hambleton)
London, April 30—Strained relations between the Japanese government and the British government have been relaxed by the Japanese declaration of last week.

Mr. Simon, the foreign secretary, explained in the House of Commons this afternoon the British government's position following release of the "unauthorized" hands off China statement, had received assurances from the Tokyo government it had no intention of infringing the nine-power treaty guaranteeing Chinese integrity, and furthermore still stood by the "open door" principle in China.

Britain, Sir John reaffirmed, was resolved to assist to the utmost the principle of international co-operation with China in her progress towards peace and prosperity, and the maintenance of peace in the far east.

The storm over the Japanese declaration already considerably modified by official Japanese explanations since ended so far as the United Kingdom has a bigger business than any other foreign power, is concerned.

Tokyo, April 30—The Japanese public will be kept in the dark, officially at least, concerning the note which Great Britain and United States have assured concerning Japan's intentions in China.

A Foreign Office attaché told the Associated Press the government at present has no intention of publishing the note, explaining it is unnecessary since Sir John Simon is making it public in London today.

Observers were quick to point out, however that by not releasing the statement to the Japanese press and public, the government would thereby escape the domestic and political consequences of what might be interpreted as a partial retraction of the Foreign Office China policy declaration of April 17.

The note, presented April 26 to Sir Francis A. Baring, British ambassador, and the United States ambassador, Joseph C. Grew, was phrased in more conciliatory terms than that of April 17.

Cedar District Man Has Narrow Escape From Serious Injury

William Cassidy, of Cedar District, experienced a narrow escape from serious injury here this afternoon when the C.N.R. passenger train, carrying a number of yards up on the other side of the street, had thrown one leg across the bumper to facilitate raising the car when it was on and when he cranked it, the machine started down the grade.

Unable to get out of his awkward position, Cassidy was held until the car hit the window and he was thrown clear. He suffered no injury.

Monmouth took a 3-3 decision from Bill Richardson's champion Southend squad, the first division when Webber booted home a goal in the overtime.

Vancouver Macabees, who outwitted the Tar Flats eleven tremendously, were nevertheless forced into overtime before they could down the local youngsters, 3-1.

Nanaimo's laurels in the latter game, went to Miller, the custodian, and Manning and Sloper, the hard working line fullbacks. These three fought nothing and cleared danger-vortices of their strong Vancouver rivals, time after time.

CHURCHES OF CHRIST, SCIENTIST

"PROBATION AFTER DEATH" was the subject of the Lesson-Sermon which was read in all Churches of Christ, Scientist, on Sunday, April 29.

The Golden Text was: "I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live: and whosoever liveth and believeth in me shall never die" (John 11: 25, 26).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: that the man of God may be perfect, thoroughly furnished unto all good works" (1 Timothy 3:16, 17).

The Lesson-Sermon also included the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God requires perfection, but not until the human being is in the Spirit and has fought and the victory won" (p. 254).

German Catholics Warned By State

Dortmund, Germany, April 30.—Dr. Joseph Goebbels, Minister of Propaganda, warned Catholics today of activities against the Nazi government.

"Addressing a party meeting, he said: "The gentlemen should not believe they can deceive us by wearing the mask of false piety."

The German Government can not tolerate any act of religious war, said the Minister in touching upon the strife within the Protestant Church.

"We do not trouble the church, but the church shall not bother us, either."

HE GOT RESULTS

Chicago, April 30.—When you're imprisoned behind locked doors, push the nearest button—it's almost bound to bring results.

Consider the plight of William Becker, piano tuner. He completed an assignment in a private home, but found the door locked, barring his exit. He pushed a button.

Squads of policemen came to his rescue. It was a burglar alarm.
