

A: Fabian Andersen. I'm 73 years old. I've lived in the valley since '69. Anyway, ended up coming to the coast as a ROTP cadet in the navy from Calgary and never went back basically. Worked at Crofton Pulp and Paper for 10 years and then went to work for ProMac Industries locally here and then bought a piece of Nanaimo Foundry in Chemainus so. 2 daughters, yep. Great life. I still work part-time for the fish farms up and down the coast so what a gorgeous province. What a gorgeous province.
