

P: My name's Doug Pieschel. I've been in Nanaimo for, since 1968. And I don't, I really like Canada. In fact, I don't think I want to go travelling anywhere else because eventually, everybody's coming to Canada. We're the least populated country in the world virtually. We got the most land and the least amount of people. There's cities with more population than we have in the whole country. So, Canada's great. We need some political adjustments and to be more global, but more community. You know what I mean? Not, less ego for everyone. And, see I've been here, on the island, I travel, the only place I traveled is Jamaica and I loved it and it was so much like Canada. And, but now, with all the problems in the world, I wouldn't travel anywhere. I just, like I, sit and wait to meet everybody here. I work at the university in the food services and we get a lot of people, a lot of international students and everything. It's a great country.
