## TEN THOUSAND VISITORS

According to reports from provincial government authorities, of the 97,000 people receiving relief in this province, 10,000 have come here since government relief started.

There are only 2,000 British Columbians on the relief lists of other provinces, it is estimated.

The figures show definitely that the burden of relief is a federal matter. It would be impossible for this province to bill other provinces for the Dominion for the relief costs of these 10,000 "outsiders." But it certainly is not right that the taxpayer of the west should bear the additional burden of these newcomers, who are attracted to the west on account of a milder climate.

Taxpayers in this province are expected, and do look after 19,871 heads of families, 56,742 dependents and 14,900 single women. The terrific burden would still be great even if this number were decreased by 10,000, and even if the same ratio of federal assistance existed.

Whatever the outcome of the premiers' parley in Ottawa may be, and whatever steps may be taken by the Dominion government to lessen the burden of the provinces, the fact remains that under the present system that it is increasingly difficult for British Columbia to maintain its financial integrity.

Mr. Bennett spoke recently of the fact that large sums of money had been lent the provinces without the surety of provincial autonomy. Surely that was not a reason for certain that Ottawa would not care to carry the entire burden of relief costs of any one province, in addition to other governmental expenses.

## CONFLICT AT GENEVA

By JAMES G. McDONALD

League High Commissioner for German Refugees Before the League for Political Education.

From the broadest point of view it seems that there are two fundamental bases of conflict at Geneva—first, between those who would use the League to maintain the status quo and those who insist that the League must not be used as an instrumentality for perpetuating unchanged the settlement imposed by the peace treaties; second, that between the democratic States and those which have scrapped the parliamentary institutions in favor of one or another form of dictatorship. These differences are very far-reaching. They cannot easily be compromised. None the less the future of the League depends upon some satisfactory adjustment of these sharply divergent interpretations.

## ARCHAIC COUNTIES

By GOVERNOR LEHMAN

In the Message Read at the Opening Session of the State Legislature.

While practically all of the cities of the State require some kind of charter revision, the size and financial structure of New York City make its problem more spectacular and pressing. There is also the additional fact that through the accident of growth five large and populous counties have been consolidated into this one city. New York City continues to provide for the archaic county government of the five components of the city and has carried over into the city governmental structure all of the obsolete county machinery. A great many, if not all, of the county functions of the five counties of New York City may well be consolidated into one or more city-wide offices.

## PRISON AS PUNISHMENT

By SANFORD BATES

Chief of the Federal Bureau of Prisons, in His Annual Report.

It is a shortsighted policy which begrudges funds for financing the various proposals looking to the reformation of the men and women who are in prison. Is it not better to spend a few hundred dollars in removing the mental and physical handicaps which may have induced a person to commit crime or in equipping the prisoner with a vocation than it is to spend thousands of dollars in incarcerating him when he reverts to his former wrongdoing?

Men go to prison as punishment, not for punishment. Such being the case, the conduct of a prisoner should not be vengeful but constructively preventive.

# SUNDAY SCHOOL LESSON GIVEN

Beginning of Ministry of Christ Is Described in Matthew

Golden Text: Repent: for the kingdom of heaven is at hand.—Matthew 4:17.

Matthew 4:12-25

12. Now when Jesus had heard that John was cast into prison, he departed into Galilee;

13. And leaving Nazareth, he came and dwelt in Capernaum, which is upon the sea coast, in the borders of Zabulon and Nephthaliim;

14. That it might be fulfilled which was spoken by Esaias the prophet, saying,

15. The land of Zabulon and the land of Nephthaliim, by the way of the sea, beyond Jordan, Galilee of the Gentiles;

16. The people which sat in darkness saw great light; and to them which sat in the region and shadow of death light is sprung up.

17. From that time Jesus began to preach, and to say, Repent: for the kingdom of heaven is at hand.

18. And Jesus, walking by the sea of Galilee, saw two brethren, Simon called Peter, and Andrew his brother, casting a net into the sea; for they were fishers.

19. And he saith unto them: Follow me, and I will make you fishers of men.

20. And they straightway left their nets, and followed him.

21. And going on from thence, he saw other two brethren, James the son of Zebedee, and John his brother, in a ship with Zebedee their father, mending their nets; and he called them.

22. And they immediately left the ship and their father and followed him.

23. And Jesus went about all Galilee teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people.

24. And his fame went throughout all Syria; and they brought unto him all sick people that were taken with divers diseases and torments, and those which were lunatic, and those that had the palsy; and he healed them.

25. And there followed him great multitudes of people from Galilee, and from Decapolis, and from Jerusalem, and from Judea, and from beyond Jordan.

## Weekly Notes of Jehovah's Witnesses

(Remarks published under this title from time to time are by Mr. W. McLellan, are inserted by him, and should not be confused with expressions of editorial opinion.)

When Jesus was on earth He spoke a great deal in parables and sayings. Many of these parables were prophetic utterances regarding the outworking of Jehovah's purposes. Therefore an understanding of them could not be had until Jehovah's time came in prison.

In Matt. 25, 31-46 there is recorded what is commonly known as the parable of the sheep and the goats. We invite each one to carefully read this parable and then consider the following remarks.

In this parable the peoples of the world are likened unto sheep and goats which at a certain time Jesus separates, the sheep going to His right hand and the goats to His left hand. Then judgment is pronounced upon these two classes. Many students have interpreted this parable to apply to what they call the great judgment day when the class represented by the sheep would go to heaven and the class represented by the goats would go to eternal punishment with the devil. A careful reading of the parable will show that this interpretation is wrong.

In the Gospel of John the word sheep is used as applying to two different classes. "During the past 1900 years God has been selecting a class out of all nations. These consecrate their lives to the service of Jehovah. If they continue faithfully to represent Jehovah, they are taken to heaven and reign with Christ during the Millennium. In John 10:4, Jesus refers to this class as His sheep that know His voice and follow Him. In John 10:16 Jesus refers to the other class when He said: "Other sheep have I which are not of this fold. In the parable under consideration it is this class that is referred to as sheep, and these are separated from the goat class. The time that this separating is done is shown by the opening words of the parable. It says, verse 31: "When the Son of Man shall come in His glory and all His holy angels with Him."

This took place in 1918 and at that time there was a small remnant of the first sheepfold. To this small remnant was revealed an understanding of the purposes of Jehovah. These were commanded to go forth with a message to the peoples of the earth, and

## COOKING SCHOOL

### A New Course of 12 EASY LESSONS

FOR BEGINNERS or for many women who does not feel she has mastered the Art of Cookery

ONE of the tragedies of the age is the household wherein there is not a good cook—one who really knows food, for in that household there is sure to be waste which works against the family finances, just as improperly prepared and improperly combined foods work against the family health, causing unhappiness and no end of trouble. To those who do not consider the subject seriously it may not seem so important at the first glance. But it is the unmistakable truth that there is no accomplishment known to women which can compare with that of being a good cook. It does not matter whether the woman in question is to do her own work or have a staff of servants—these are the reasons for this new cookery course.

After five years of preparation, Anna Lee Scott is offering to all readers of this paper, her new 12 Lesson Course in the Art of Cookery, making it possible for everyone, regardless of their income, to find a new thrill in the preparation of food. These new easy ways are without a doubt the most interesting and economical ways.

The first lesson of this series appeared January 15. Each lesson is complete in itself. Other lessons will appear on the same week day for the next 10 weeks. Read and study them. You will find the lessons decidedly helpful, now, and in the future.

Second Lesson Appears MONDAY January 22th

## Moments Musical

Lack of material dealing with Canadian musicians and composers causes consternation wherever the subject is discussed. The small use of the works of Canadians either native or by adoption, is caused by the paucity of texts upon the subject.

There are a number of composers in this Dominion whose songs have universal appeal, and are widely known. Yet how many music loving Canadians know that Ernest Seitz, composer of "All the World is Waiting for the Sunrise," is a Torontoite.

Geoffrey O'Hara was born in Chatham, Ontario, and like a good many other Canadians has made a name for himself in New York. His works range from the ridiculous to the sublime. Do you remember the stuttering strains of "K-K-Katy"? In contrast is the impressive "There is No Death."

Of particular interest to Canadians are his settings of some of Drummond's poems. Among them "Leetle Bateesse" and "Wreck of the Julie Plante."

Laura G. Lemon was born in Canada and lived much of her life in the States. Probably her best known song is "My Ain Folk."

A tuncful suite for piano, "In Distant Lands" has an atmosphere of distinction. It is a composition of Miss Beauchamp, who is of Ontario, and writes of many songs.

"Three Songs of the West Coast" (Naas River tribe) are by Ernest MacMillan, who was persecuted by Dr. Marjorie Barbeau of Ottawa to come out here and sing at Pictou, Ontario, and writes of many songs.

The arrangements of French and Indian folk song by Canadian composers is worthy of a place on any Canadian programme. Word translations are by J. Murray Gibson and Foss England, with arrangements by Dr. Ernest MacMillan, Dr. Healy Willan, Achille Fortier, Alfred Laliberte and others.

An expatriated Canadian, Arthur Penn is composer of the well known "Smile" Through.

G. W. Johnson of Hamilton, later a master at Upper Canada College, wrote the ever-popular ballad "When you and I were Young Maggie." Dr. Healy Willan, Canadian by adoption, has written numerous songs, a sonata for violin and piano, and part songs for numerous voices.

J. D. A. Tripp, of Vancouver, has contributed many fine piano compositions. William Dickinson has also written many songs. Canadian composers are not lacking, but we do fall to appreciate them, because of lack of advertising, and our inherent idea, that only in foreign music can we find expression.

TEN YEARS AGO

Yesterday's football saw Nanaimo City defeat Vancouver by a 10-0 score before 2,000 fans. The one goal which decided the fixture, was in the opinion of many fans, of a questionable character, the contention being that Referee Dawson was in no position to give a decision, as at the last the only distance the ball was over the line was the extent to which Jack Brown's body was arched when he boosted the ball out again into the field of play.

## EXPECT EXPULSION OF SAMUEL INSULL

Supreme Court Report Recommends That Magnate Be Banished From Greece

Athens, Jan. 20.—The reporter of the Supreme State Council recommended Friday, to the Council, that Samuel Insull Sr., former Chicago, Utilities operator, be expelled from Greece. The decision is expected next Tuesday.

The reporter, Theodore Angelopoulos, presented his recommendations at a state council session which had to decide whether it was competent to handle Insull's appeal against a government deportation order.

In the court corridors it was rumored that President Ractavon of the Council and the seven other judges were evenly divided. Insull was not in the court room when the case was taken up, remaining in bed at the advice of his physician, Dr. Voglas.

He "didn't see you taking a tramp through the woods yesterday." "A tramp?" That was my father.

## Ladysmith Beaten By Mosquitos, When Holt Breaks Knotted Score

Thrilling Game Witnessed At Local Gymnasium; Personalities Are Frequent

#### SPENCER'S WIN

Mosquito A's, of this city and Ladysmith Seniors staged the finest basketball exhibition witnessed here for many seasons, last night when they met in the feature game of the hoop court. Mosquitos won 16-16, Gord Holt took a four-length pass from Jimmy Houston, and rolled the ball through the hoop in the dying moments of the game to break a 16-16 deadlock. At half time Ladysmith led 6-5.

Both teams played a tight defensive game in the first period and five minutes passed before Jack Naylor sank two free shots to give Mosquitos a 2-0 lead. Rafter replaced Houston on the local lineup, but Ladysmith counteracted this move by substituting Wargo for Batts. These two players failed to find the opening basket, and it was not until six minutes after Naylor's score that Lipak brought the Lower Islanders on even terms by sinking a field goal.

Smith and Strang replaced George Kulai, who had three personals against him, and Young. Naylor could not be stopped, however, and he put his team in the lead with a shot from close in. Robinson followed the example and with five minutes of the period left, the score stood 6-2 for Mosquitos. Then Ladysmith opened their attack, and Strang sank a shot from close to the centre line. Lipak made good on a free throw to leave the score at 6-5 when the gong rang for the interval.

#### Ladysmith Scores

The Gain boys broke through the Ladysmith defense immediately upon resumption. Robinson secured two baskets and Rafter one. Naylor's free shot gave his team a 13-5 lead. Then the Smelter City squad ran in their substitutes. The change appeared to put new life in the aggregation and the baskets came with rapidity. Davidson, Kulai and Young combined to bring the score to 13-12

Sport Departure Initiated By Jack Tully, Mentor of Galahad Team

The first group training house in Nanaimo has been established and on Monday evening 12 members of the Galahad Intermediate B basketball team will take up quarters in their new home, a two-storey house on Comox Road.

The scheme had its inception through Galahad coach, Jack Tully, who experienced the same routine training while a member of athletic groups back East.

With the provincial title now held by Mosquito A's, who are out of the class this year, at stake, this local team hopes to be in perfect condition for the strenuous play-down series. The players will go to bed at 9:30 o'clock every evening, arising at 6:30 for a session of roadwork. Their floor training will be held at 6:30 every evening. Homework will be strictly adhered to and a local teacher has promised to tutor any of the boys, in order to keep them up in their studies. The players will always have a leader in the form of them, with Coach Tully or Manager Russ Inkster on hand. Regular house duties will be assigned to each member.

"They will adhere to their training for six nights every week with Saturday evening free for them.

Members of the team who are expected to stay at the training house are Doug Kirkbride, Bill Anderson, John Fula, Dave Aitken, Jimmy Russell, John Niven, Art Denton, Alex Scott, Bob Large, Bill Waugh and Ray Newberry.

### CHURCH GATHERING HEARS LEN MARTIN

Member of Boys' Parliament Is Outspoken in Attack On Liquor Evil

Haliburton Street United Church was the scene, last night, of an interesting meeting in the interests of the new temperance movement. Mr. J. Hitcher, Jr., acted as chairman, and he had on the platform with him, two speakers, Jack Branham and Len Martin, and Bardwell Wheatcroft, member for Nanaimo District to the Tuxis and Older Boys' Parliament.

At Haliburton Street, United Junior Choir, the Indian Loyall Temperance Legion and the Indian Senior Church rendered musical numbers. The Indian Loyall Temperance Legion was introduced by Miss Clifton, who stated that this organization has a membership of 48, all of whom are pledged abstainers.

Jack Branham, CKFC radio announcer, declared that youth is being routed to action in a determined and organized way, and that is the reason for the overthrow of the liquor evil. In introducing the main speaker, Len Martin, Bardwell Wheatcroft described him as British Columbia's leading boy orator.

Mr. Martin is a strong, forceful manner told of the harm intoxicants cause the home, the individual and the nation. He explained the total abstinence pledge that all members of the boys' parliament had signed at their last session.

Pledges were then distributed and they met with a good reception from the young people, scores of whom took the total abstinence pledge.

Previous to the meeting, the members of the Scout Hut, where 39 Scouts listened with keen interest to the messages. At the close of their meeting resolved that they would all attend the Young People's mass meeting at 11 o'clock, this morning at St. Andrew's United Hall.

### Bounding Basque To Play With Kerries In Sunday Fixture

Chris Rothweiler, the Bounding Basque of last year's Pacific Coast League, will appear with Kerrielle here tomorrow afternoon when they meet Nanaimo City in an exhibition game at the Central Sports Grounds, commencing at 2:30 o'clock.

The impetuous German centre forward is one of the most amazing players in the league, and is an excellent entertainer. As agile a cat, he can take the heaviest checks without showing a sign of injury. Last year he amused fans when he discarded a shoe and kicked the ball around with his bare feet.

The Nanaimo squad is in fine condition for the contest and Phil Pether reports that most of the signed players of the City will get into the game tomorrow.

Rev. Andrew Roddan will speak in St. Andrew's United Church, Monday, Jan. 22, at 8 p.m., on "Children of the Dead End."

### TREASURE HUNTERS SEEK KIDD'S GOLD

Legendary Hoard of Old Pirate Said To Be Buried On Oak Island

Oak Island, N. S., Jan. 20.—When Captain Kidd buried his loot on this island, he was sure that he would find it, if you want to believe the old timers, is why no one has ever found the fabulous hoard of gold and jewels which, legend relates, lies buried somewhere on this little island.

There is no doubt, they will tell you, that the treasure is there. But it is well guarded for Kidd took no chances when he buried the booty he plundered on the Spanish Main. Perhaps that is the reason why scores of men and boys have failed to locate the legendary cache.

Now the lure of the fabled wealth has struck again, and this time a western company has been organized to go after the treasure. Capitalized at \$50,000 its head office is at Victoria, B. C. And soon, it is expected, the noise of machinery will again sound over the spot where pirate treasure is supposed to be.

For some reason all recent excavations have centred about this particular spot. Those who believe in the treasure's existence say definite indications of the hoard have come to light there. According to one story, a piece of gold and a piece of gold chain on the end of their drill bit they found nothing more.

Water flooded the shaft before they could get much deeper. Those who worked there say the water came through a passage to the sea constructed by Kidd to prevent searchers from getting below a certain depth.

### Leaves His Safe Unlocked To Aid Would Be Robbers

Halifax, Jan. 20.—Burglars please note: E. Bert Batsford says you can buy anything from needles to anchors in his waterfront shop doesn't believe in locking his safe. He thinks it's a waste of money and effort.

"For years," says E. B. B. "I've been annoyed with burglars deliberately spending a whole night working hammer and crowbar to break into that safe, a big, massive old fashioned iron box, the size of a horse's chest and I have had to be worthy of his hire and I hated to see a man work all night for nothing, so I don't lock my safe anymore. It saves me just \$25 a robbery, too. Because they usually ripped the combination close to mine and when they found so money they became so enraged they threw my typewriters to the floor and used paper files and drawers, wreaking vengeance on me. Now I warn them there's no money here. I haven't had the safe since I began hanging up the sign which says 'Mr. Burglar: This safe is not locked. Please do not damage and edge, E.B.B.'"
