

SIXTIETH YEAR

NANAIMO, VANCOUVER ISLAND, BRITISH COLUMBIA. WEDNESDAY, OCTOBER 18, 1933.

BUY B.C. PRODUCTS CAMPAIGN SWEEPING THROUGH PROVINCE

Reasons Given Why People of
British Columbia Should
"Buy at Home"

WOMEN ASSIST Plan Designed to Assist in Creation of Employment; Foster Industry

BY L. F. CHAMPION
Manager, Products Bureau, Vancouver
Board of Trade

The B. C. Products Department of the Vancouver Board of Trade opened their 1933 Fall Campaign with a B. C. Products Week at Westminster on October 15. This week will be continued each successive week with similar events at Duncan, Nanaimo (Oct. 22-28), Fort Alberni, Vernon, Penticton and Kelowna, and following the usual procedure in each of these cities an extensive campaign will be held in the City of Vancouver, followed by weeks in other centres throughout the Province.

This ambitious drive has been prompted by the many offers of cooperation received from all centres—Women's Organizations, Service Clubs, Board of Trade, the Press and Merchants' Associations—freely expressing their interest and direct assistance.

The Vancouver Board of Trade has continuously carried on this "Buy at Home" campaign for thirteen years, and may be considered the pioneer of a movement that is now being led by other provinces in our Dominion, and every civilized country on earth. No better recommendation of the soundness of the effort to preserve and build up the industrial structure should be required.

To Increase Employment
The basic idea is to increase employment, which is directly associated with industrial expansion, such as increased production of goods, profitable returns from industrial investments, etc., create the earning and spending power so urgently needed.

Considering that at present there are only 90,000 British Columbians, nearly one-sixth of our total population, through lack of employment, obliged to accept relief assistance, it behooves every one of us, irrespective of position or occupation, to buy at home as our primary duty, and to remain until our midst to help create a job for some other citizen. It is in addition plain common-sense reasoning. Not one of us can enjoy happiness, prosperity and security in ourselves alone.

Advocating the increased use of B. C. Products in the direct way will, we believe, increase employment as are at present employing sufficient direct competitive products to provide employment for hundreds of our own citizens. We are trying to direct this volume to our own products, always considering their equal value and utility, which we know we have in most cases.

Products Equal To Any
Our farm products—live stock, timber, fruits and vegetables—are equal to any. In wood products we have building materials, furniture, etc. Our fisheries provide excellent fresh and canned products, our mines, a wide variety of metals, coal, etc. In manufactured products we have a variety of goods, 500 separate and direct articles, all made to standard of equality with others, and every one of our products giving, what no import can provide, maximum employment for British Columbians.

We have always received the loyal support of British Columbia retailers, an increasing number of whom are carrying our Fall and Spring Campaigns and during other periods. We are, I am convinced, able to count upon a continuation of this support.

Railwaymen Are Still Awaiting Wage Settlement

Montreal, Oct. 18.—Running Trades Union members in Canada and fellow employees today still awaited word of settlement of the wage dispute with the railway company. It was authoritatively denied last night that settlement had been reached, but was growing among those watching the situation that news of settlement might come anytime.

SPEAKER

Corageous Front Urged by Premier In Prairie Speech

Tariff Policy Has Served Purpose of Protecting
Home Markets and Home Industries,
He Declares

By C. R. Blackburn

Calgary, Oct. 18.—Completing his speaking tour of Western Alberta cities, Edmonton, Calgary and Lethbridge, Prime Minister R. B. Bennett returned to the city of his adoption tonight to spend one more day of rest before starting on the return journey to Ottawa. Tonight he will leave for Regina where he is scheduled to address a luncheon meeting tomorrow. That will be his last speaking engagement of the tour.

Old Man Winter Early On Job; Snow at Kelowna

Kelowna, Oct. 18.—One of the earliest snowfalls on record fell overnight in Kelowna, with more than one inch of wet snow. Considerable damage was caused as tree branches broke, or snapped telegraph and power lines. Nearly an inch of rain yesterday preceded the arrival of heavy snow. It was reported from the Crow's Nest Pass area, and three inches at Lethbridge.

WAGE STRIKE AT STRAFFORD ENDS

Annice Buller, W.U.L. Worker, Is Greeted by Strikers Upon Release From Jail

Stratford, Oct. 18.—Announcement was made today that all differences between employers and employees of the Preston-Nightingale Furniture Company, closed for a month, since employees struck for higher wages, has been amicably settled. Strikers will return to the plant tomorrow.

Stratford, Oct. 18.—A message of greeting from striking Stratford furniture workers and packing plant employees has been sent to Annice Buller, organizer for the Workers' Unity League, released yesterday from Stratford, Sask., jail after serving a one-year term for the part she played in the Esteyvan mint strike in 1931. The message was endorsed at a meet held in strike headquarters here last night.

Annice Buller will return at once to the ranks of the Workers' Unity League, Fred Collins, organizer for the League, declared. If the Stratford strike continued, efforts would be made to have her come here, he said.

"Caddy" No Conger, Discovers Say

Men Who 'Found' Sea Serpent Are Pained That Freak Should Be So Maligned

Victoria, Oct. 18.—People who have seen the creature, the "Old Hatter," the "great sea monster," as it is disparagingly named in waters adjacent to Victoria, resent accusations of outsiders that it may be a conger.

Major W. H. Langley, clerk of the British Columbia Legislature, who has been whaling and caught practically every kind of fish there is, and P. W. Kemp, official in British Columbia Archives here, who were first to come forth with news of the sea creature, are annoyed. Mr. Kemp saw it in 1932 and while he reported it to the Marine Department, he did not make it public for fear of being ridiculed. However, when this boy spoke to him of seeing this strange creature four weeks ago, they compared notes and decided to make an announcement.

Mr. Kemp this morning issued the following statement, taking issue with statements made by British Columbia and Washington scientists that Caddy, or Caddy for short, probably is a conger eel.
"The creature was saw off Clatsop Island, three miles from Victoria, was no more like a conger eel than my hat. In spite of what our scientific gentlemen of British Columbia and Washington may say."

"I have caught a good many off the south coast of the Life of Whig. My first feelings on viewing the creature were of being transformed to a prehistoric period when all sorts of hideous creatures abounded. When the thing showed its head, I rather than was with a drifting movement which did so with a jerking motion, but was not fishlike, but rather more like the movement of a huge lizard, the serrated back also bearing out this opinion."

FINES, PRISON THREATENED BY ADMINISTRATION

Roosevelt Invokes Emergency Powers to Prevent Cheating Under NRA Codes

FARM PROGRAM

By C. R. Blackburn

New York, Oct. 18.—Fines and prison sentences, formed the double-edged whip President Roosevelt held today as he moved toward stopping NRA code violators from laying back in the recovery trays.

Fines ranging up to \$500 and prison terms of not more than six months were provided in an executive order promulgated for the purpose of ending cheating on the part of the NRA. The President invoked his wide emergency powers because of a flood of complaints to Washington many business men, most of them small merchants, were not living up to their promises to employ additional help and pay higher wages.

The wealthy oil industry, suffering from low prices because of cut-throat methods within its own home, was another group which threatened a government remedy if it did not voluntarily cure its ills.

Interior Secretary Harold Ickes, administrator of the oil code, fixed prices for the industry. He threatened use of his drastic powers to curtail production as a further leverage to prices if producers did not drop the flow themselves by Nov. 1. Meanwhile Roosevelt and his aides also covered the farm front.

This belt, where have been born the loudest demands for currency inflation, received concerted governmental efforts to improve conditions. Tuesday's order upped the price of wheat to cotton and five cents per bushel on wheat was direct result.

While Governor Langer of North Dakota was protesting against the plan for a wheat shipment embargo as a price inbreast, Washington agencies completed contracts for 1,000,000 bushels for relief distribution. There were indications this week that the plan would be to 40,000,000 bushels and eggs added to the relief-distributed commodities.

Organization of the commodity credit corporation advanced to the stage where it will be ready to mark up the price of wheat to cotton and five cents per bushel on wheat was direct result.

The Labor Department announced an upward trend in wholesale prices which began in March and continued unabated through September.

NEW GUAYANIDIAN NAMED
Georgetown, Guyana, Oct. 18.—Official telegraphic reports from Guyana today said the Senate had declared vacant the office of the president of the republic. The reports said the action was based on charges of malfeasance in office against President Martinez Merz. Dr. Abelardo Montalvo was named to succeed him.

Individual Provincial Chapters contribute to its upkeep.
A resolution was endorsed in connection with the issuance of a commemorative stamp to mark the death of the Empire Loyalists 1776-1950.

**AGED LADYSMITH
RESIDENT PASSES**
Miss Jennie McLachlan's Death
This Morn'g Unexpected;
Funeral Saturday

Miss Jennie McLachlan of Ladysmith, passed away at the family residence, Third Avenue, at 9:20 o'clock this morning. Although Miss McLachlan has been unwell for some time, her demise came as a shock to her many friends, since she recovered somewhat, and had signified her intention of getting about once again.

Her brother, Mr. James M. McLachlan of Salt Lake City, Utah, arrived in Ladysmith last Saturday, and was with his sister at the end.

Deceased, who was socially prominent in the city, was well known and highly respected. She was in her seventy-sixth year.
Only her brother survives to mourn her passing.
Funeral services will be held from the United Church Sunday at two o'clock. Rev. C. McDiarmid, B.A., officiating.
D. J. Jenkins Ltd. are in charge of funeral arrangements.

Clash Between Simon and Neurath Bitter

Controversy Between Delegates of Britain and Germany Causes Widespread Interest

REMARKABLE CLASH

By Albert L. Wilson

London, Oct. 18.—The controversy between delegates of the Disarmament Conference and his controversy with German Foreign Minister Konstantin Von Neurath, it was indicated today after a two-hour cabinet session. The Foreign Minister reviewed the whole situation caused by Germany's action at Geneva during his conference with the Cabinet.

London, Oct. 18.—What many considered one of the most remarkable clashes between statesmen of two great powers in many years was brought into prominence today at the Disarmament Conference. Sir John Simon on Baron Konstantin Von Neurath.

Sir John, as Secretary for Foreign Affairs, headed Great Britain's delegation at the World Disarmament Conference which resumed until October 26 after Germany's withdrawal. Herr Von Neurath is Germany's Foreign Minister.

Today, which effect the controversy of the other—may have on the political careers of the two men in their respective countries and also on future Anglo-German relations, was raised with widespread interest.

In a speech last night in which he charged Germany was "juxtaposing it not wrecking" the cause of disarmament, Sir John repeatedly referred to what he termed Von Neurath's statement he (Simon) was "spreading untruthful statements" about the German Foreign Minister and "false views" of Germany's armaments demands.

"At one point in his earnest address, Sir John said he was ready to 'show his records and documents' to 'publish his views'."

FIRE CAUSE OF HEAVY DAMAGE

Mill Is Destroyed At Stave Lake; Blaze Believed Work of Firebugs

Vancouver, Oct. 18.—Leaving a heavy toll of damage in its wake, fire of unknown origin swept through the Stave Lake Mill, 3000, Seventy-seventh Avenue and Hudson Street, shortly after nine o'clock Tuesday night.

Fire department officials are closely examining the circumstances of the blaze in view of the recent fires in this type of building, many of which were suspected to have been started by "fire bugs."

When three fire department companies under district chiefs reached the scene the flames had gained the upper part of the building. After a grim battle the flames were subdued.

The first estimate of the damage sets the value at many thousands of dollars.

WORLD OPINION

The questions hereunder, called from the Press of the World, do not necessarily carry the views of the Nanaimo Free Press.

FEWER PROVINCES?

The proposal for one provincial government for the three prairie provinces will not do, says Hon. D. Esler, M.P., has come out in favor of the proposal. He would have one large Maritime province in the interests of economy.

The proposal will meet with less success in the areas particularly concerned than elsewhere. It is always thus. There are many vested interests and many community ambitions and jealousies that would be disturbed by amalgamation.

On the other hand we have the outstanding example of post-war Germany where the mark was inflated beyond the dreams of any economist. For a while the policy did reduce the number of idle workers in German industry, but when the bubble burst 28.2 per cent of all German trade unionists were unemployed and another 42 per cent were working on part time.

Labor usually loses in inflation. Wages cannot keep pace with a rise in paper prices of goods as that induced by inflation. It is a well-known fact that wages follow prices about 18 months after a rise.

Under the present system there is no incentive for financial stability and credit. To inflate is to lose credit or engage upon a policy of reckless expenditure is only to beggar the workers, and place them, in a far worse condition than they are at present experiencing.

Our great problem today, and one which the best brains of this and many other countries should be engaged in solving is that of distribution. No one should want in a land of plenty. That is the question that needs solution before all others.

It would be foolish to attempt to run a penitentiary as if it were a first class hotel full of paying guests; but there is another extreme which should be avoided. The convicts need not be treated worse than beasts and come out from behind the walls thoroughly brutalized.

Some of the defects in the present system and some suggestion has been made that a Royal Commission be appointed to inquire into the whole problem. It may be pointed out, however, that a commission is not necessary, the abuses being possible of remedy by the Government of the minister responsible—Niagara Falls Review.

DR. HALL IS GIVEN APPRECIATIVE HEARING AT BANFIELD AND ERRINGTON

Dr. G. A. B. Hall spent Monday and Tuesday at the upper end of the constituency. Leaving Nanaimo on Monday morning, he addressed the business men's luncheon at Port Alberni, but not on politics. He proceeded by launch to Bamfield in the afternoon and addressed a large gathering in the Community Hall. He found the people very attentive and interested.

THE POULAIN CASE

The author of the editorial in his paper remarks has shifted the whole responsibility of the murder on the shoulders of the son, the deceased, who was sent to his death and accused of an offence which his spirit cannot defend. I am the father of this twenty-three-year-old boy, who was stabbed to the heart and I, along with the citizens of Ladysmith, live with the disgust of the results of this administration of law in my mind.

It is well that the public should know a lot of the facts of the case, at least have been brought out to give the dead boy a square deal. I want the public to know that my son was not living the life I would have had him live. He lost his mother in his early years and there was no guide in life. I did my best to persuade him but apparently he got into the wrong company which overpowered my efforts, and his life led to his fate.

It is well known to me that whenever my boy got the worse for liquor he was straight to be found in the company of Poulain. If the boy did go straight for a while, Poulain would send for him and drag him back into it again.

It is well known to me that whenever my boy got the worse for liquor he was straight to be found in the company of Poulain. If the boy did go straight for a while, Poulain would send for him and drag him back into it again.

INFLATION

Does inflation assist the worker? William Green, president of the American Federation of Labor, does not think so. Recently he said: "We have not forgotten how workers in other nations in Europe suffered because it required on some occasions a bushel basket of money to buy just an ordinary commodity. We do not want to go through that because the record shows that wages remain static, while commodity prices go up..."

The basis of argument of the inflationists is that the procedure will necessarily stimulate prices, increase production, helps in providing more employment, and thus provides a greater net wage amongst workers. On the other hand we have the outstanding example of post-war Germany where the mark was inflated beyond the dreams of any economist. For a while the policy did reduce the number of idle workers in German industry, but when the bubble burst 28.2 per cent of all German trade unionists were unemployed and another 42 per cent were working on part time.

Labor usually loses in inflation. Wages cannot keep pace with a rise in paper prices of goods as that induced by inflation. It is a well-known fact that wages follow prices about 18 months after a rise. Under the present system there is no incentive for financial stability and credit. To inflate is to lose credit or engage upon a policy of reckless expenditure is only to beggar the workers, and place them, in a far worse condition than they are at present experiencing.

Our great problem today, and one which the best brains of this and many other countries should be engaged in solving is that of distribution. No one should want in a land of plenty. That is the question that needs solution before all others.

DR. DIER WOULD CUT EXPENDITURES

Asserts Next Government Will Be Chosen From Amongst Independents

Dr. R. B. Dier's meeting at South Vancouver last evening was attended by a large number of interested voters. The candidate is well known in that district, where he campaigned in a provincial election 17 years ago.

Criticism of the late Legislature in the election. The Nanaimo Riding was made by the speaker, who stated that his tour showed that Alberni and Nanaimo were large enough for separate ridings. The natural boundary of the two districts was the Victoria Range. He would endeavor to have the necessary changes made, if elected, he said.

The doctor reviewed the legislation of the old line political parties which had brought the province to its present condition, and predicted the next government would be chosen from amongst the ranks of the independent candidates. The electorate, he declared, wanted a government run on business lines for the benefit of the masses, and not for the vested interests.

The candidate asserted that he would also take account of the deplorable condition of finances of the province, and would cut down expenditures in many departments. He instanced the Compensation Board, and declared that the salaries paid there, in many cases, a scandal. Five years would be a limit term for members, and there would be a change of members every second year, he stated.

"The Board is too autocratic and many applicants for redress find it harder to meet certain members than to gain an audience with King George," the doctor declared.

The candidate outlined a permanent system of road work to bring about relief in industrial and unemployment conditions, and to increase the present relief scale. Dr. Dier strongly criticized the increase in the same later fees and the inauguration of the tag system, at a time when thousands of unemployed could not afford the increase. Free hunting and fishing licenses to all unemployed, who could not pay, was his policy.

Dr. Dier gave an impressive talk to the electors of Nanaimo Free District Monday evening.

What Is There About This Game Of Ice Hockey?

This Is What Management Is Asking As Orders For Season Tickets Begin To Pour In.

New York, Oct. 18.—Irresistible drawing power of the game, or the sporting world's response to N. B. A.'s "Buy Now" campaign? That is the question business managers of the New York Two National Hockey League clubs are trying to answer today as orders poured in for season tickets for N.H.L. matches at Madison-Square Garden. While the hockey men themselves were congregating on Canadian soil—Rangers, the world champions at Montreal and Americans as Oklahoma City club officers here were in a constant hub preparing for the opening game. Gotham officials of the ice sport are confident this will be a banner year. They base their predictions on the early season demand for the pastebards, which are not yet on sale, and on the almost spectacular recovery of United States football from an attendance viewpoint. Hockey Great Game "We consider hockey the greatest game played today. If football can have such a good season I am sure hockey will fare even better in New York at least," said William Dwyer, owners of Amerks. While his coach, Joe Simpson, whipped into shape one of the largest bands of athletes the Amerks ever have taken to a training camp, Dwyer voiced his opinion the team was destined for better things this year.

Simpson is endeavoring to round out a team of big, fast, hard-hitting players. The average weight is around 180 pounds, it was said. There are three Lloyds and two "Reds" trying for places. There are Lloyd Cross, Jackson and Klein. The "Reds" are Conn, from Philadelphia Arena of the Canadian-American League, and Fred Harkey, Western Canadian amateur, last year with Drumheller, Alta. "Sweeney" Schirmer, another Western Canadian youngster, is considered one of the outstanding prospects. He played in the Southern Alberta League with Hergert. Meanwhile the grey-haired sage of the Rangers, slim, debonair Lester B. Patte, returned to Montreal, where his players gather for the start of training, Friday. Lester To Sign Squad Ott Heller, great pinch-hitting utility player of Kitchener, has agreed to his contract, but Heller has to sign up the balance of the players, there being no holdover contract left last season. Gene Pusie, giant wrestling defense man from Quebec, and last year a star, in the Western Canada pro circuit; Lorne Carr, snaging wingman from Buffalo's International League team, and young Lawrence Molyneux, former defense star of Newmarket Juniors; are newcomers upon which Lester is most sweet.

SMART CARD IS SCHEDULED HERE

Savers Arranges Attractive Events To Be Held at Pygmy Arena This Saturday

A wrestling and boxing card is being promoted by Dan Sawers at the Pygmy Arena Saturday for the Mosquito Club. Headlining the card will be Jackie Eng, clever Winnipeg Chinese, who holds a decision over Bobbie Luscombe and a draw with Billy Petrie, and Phil Trudeau, the Vancouver slasher. Trudeau needs no introduction to Nanaimo fight fans, and he is expected to put on an exciting battle with Eng. Both tip the scales at 133 pounds. Harry Pollitt and Jackie Patterson popular local leather pushers, meet in the semi-windup. These two boys have shown their wares together on previous cards and their keen conception of the boxing game enables them to put up a pretty exhibition. Sunny Foster, of Northfield, and R. Hodgins, Nanaimo A. C. are billed for one of the preliminaries, with Battie and Kerrigan the Ladiesmith midgets appearing in the curtain-raiser. Four top-notch wrestlers are scheduled to appear in the two wrestling bouts. Wildcat Woods, Vancouver squirmier, and Wild Bill Windley, fresh in from a prospecting trip to the Caribou, tackle in one event and a grudge match will be staged between Joe Shepherd, clever local product, and Johnny Pickup, of Northfield A. C. The two wrestling and four boxing events are expected to form an interesting card and a bumper crowd is anticipated to support the Mosquito Club in their attempt to raise funds.

Members of Devino Club To Travel To Victoria Next Week

No meeting of the Devino Club will be held next week as most of the members will be in Victoria that day when the club stages a play at the dramatic festival. Any member wishing to travel is requested to communicate with Joe Betram. The regular meeting of the club was held last evening at the United Church and was attended by a large number, despite adverse weather conditions. Miss Aileen Carruthers, social vice-president, arranged a short program of humorous sketches or jokes, following the devotional period. DRY KINDLING \$2.50 per load delivered for Get Your Orders in Early. Clarke & Son Campbell St. Phone 47

Saskatchewan F. A. Approves Use of Soccer Substitutes

Regina, Oct. 18.—Following the lead set by British Columbia and Quebec, delegates to Saskatchewan Football Association's annual meeting approved the use of substitute players on football teams. Placing of the substitute motion before the meeting Saturday by Bill Kerr, of Regina, caused bitter debate but the issue was finally decided on the vote of the new Hoopes, retiring president. Under the new measure, substitutes will be used as in British Columbia—two subs up to fifteen minutes from the end of the match. The meeting also set an age limit of 21 years, for juniors, applying as of Jan. 1, of the playing year.

Duncan Man Has Exciting Battle With Brown Bear

Duncan, Oct. 18.—"Cougur Charlie" Caldwell, of Lake Cowichan, had an exciting adventure with a bear on Sunday. While out grouse hunting, he saw a bear and decided to take a shot at him. A charge of buck shot in the face only enraged bruin, who charged the hunter. A second shot accentuated his rage, and Mr. Caldwell was knocked to the ground by the bear, who seized the hunter's coat in his mouth. Mr. Caldwell's dog rushed to his rescue. The hunter used the butt of his gun freely on the bear's head and his, together with the dog's furious attack, induced the bear to beat a strategic retreat.

Minister Visits Galaxy of Stars; Makes Own 'Scope

Winnipeg (CP).—A practical citizen of these modern times, Ven. Archbishop E. H. Kowles, of Regina, has traversed the elements in romantic style and challenged distance and time. Each evening, with a telescope of his own construction, he romps the planet world, visiting satellites of Saturn, Capella, Antares and Arcturus. The telescope, a reflector type with a six and one-half inch mirror fitted into the bottom of a tube larger in diameter and four feet long, may be found in the cleric's garden, pointing to the celestial North star. At the top of the tube are eye pieces giving powers of 430 magnifications, and a star finder to locate the object sought. Venus, Saturn, Mars and Jupiter are easily reached through the telescope, entirely made and assembled by the veteran minister. "Science, each year," the archbishop said, "brings us more extensive knowledge of the work of the Almighty. We are only starting to learn of the hidden treasure of beauty and immensity which lie hidden in the universe to which we belong."

MAN WHO BETTERED HORSES' TIME, DEAD

"Steve" Farrell Stricken While Playing Golf; Trained Many Fine College Athletes

Ann Harbor, Mich., Oct. 18.—Stephen J. "Steve" Farrell, 70, who in his youth would outrun a horse, and who spent 30 years in developing college runners, fell dead yesterday on the University of Michigan course. Three years ago he retired as coach of the University of Michigan track team, after spending 18 years here developing such outstanding runners as Carl Johnson, the only athlete ever to win four events in a conference meet; De Hart Hubbard, dash and broad-jump record-breaker; and Eddie Tolan, Olympic sprint champion. Farrell was one of the world's foremost professional runners in the last two decades of the nineteenth century, and twice won the English Sheffield Handicap, taking \$15,000 in prize money. Shortly after Farrell returned to the English event, he entered a free-for-all race with a horse without a handicap, and won easily. For several months he toured the country, repeating the race, always winning. In 1908 Farrell's athletic career ended when he fell over a stray dog while training for a race and fractured an ankle.

Royal Scot' Stalls When Impure Coal Used for Engine

Denver, Colo., Oct. 18.—Her regal British "marmals" stoked with "improper coal and her entry heralded by the toots of a yardful of locomotives, the Royal Scot, Great Britain's crack passenger train, came to Denver yesterday—four hours late and under convoy. Hauled from Eads, Colo., into Pueblo, by a Missouri Pacific train crew, the Scot "Made it over the hump to Denver" in the words of her engineer, William Hubertson, under her own power. Behind her, however, loitered a mountain-type locomotive equipped to push if necessary. The Royal Scot, a World's Fair exhibit, stalled on the upward-sloping prairie near Eads because of "bad coal."

NAZI MOVEMENT IS FOUND IN AUSTRIA

Government Investigations Continue Into Alleged Plots At Linz Garrison

Vienna, Oct. 18.—Nationwide Nazi military organization has been developed in Austria, it was disclosed today, despite the handicap of the party's dissolution in this country.

The widespread movement came to light as government investigations continued into alleged Nazi plots at the Linz garrison and elsewhere to seize arms for use in further action.

Outstanding in the disclosures is the fact that Nazi storm troops no longer are being organized in a civilian, but are in the hands of Austrian army officers—either active or recently retired. A second fact is these Nazi storm troops are organized by army men and drill regularly.

A curious detail of these drills, investigators say, is use of "Fascist Heimwehr" sentries surrounding the drill ground in the middle of the forest to keep away casual hikers. The sentries of course are all Nazis disguised.

The third fact uncovered in investigations, it was said, is the uncovering military organization—endless civilians but organized from within the army and allegedly preserving contact with Germany—divided into brigades.

Austrian political police also enter into the investigation of the Nazi organization. The difficult position of the police if they ever should be called upon to arrest army men is apparent, but the situation is complicated further by the fact federal police are not 100 per cent free from Nazi sympathizers.

The seed of mangels, sugar beets, and turnips is readily lost by handling. For this reason cutting, binding and stooking is best done when dew is on the plants.

Jerusalem artichokes are of much greater value as a crop for poultry feeding than is generally realized. The tops may be used as green fodder in summer and the tubers as roots for winter feeding.

Sunflower seeds are not fed extensively to poultry but many town keepers grow a patch of sunflowers, bend the heads down as soon as the seeds fill and allow the hens to help themselves.

WHALE FIGHTING, ACTION PACKED

Seattle (CP)—A harpooned finback whale is the same fighting menace as he was in the days of "Moby Dick," when they had iron men and wooden ships, says Captain Peter Oness back from Alaskan whaling.

"There was one old daddy finback off Kodiak Island," he said. "The whaler Peterson chased alongside and Frank Christensen who has been whaling since he was kneehigh to a windchill, swung his harpoon gun.

"With a crash a six-foot harpoon, carrying a bomb and a light line hit the whale and he bounded for the bottom as the bomb went off.

"He came up fighting. He was about 50 feet long and the battering only 87. The lines were pulling on the ribs.

"The whale crashed into the Patterson and she got about. The captain wasn't afraid the whale would knock a hole in the boat but he was afraid the lines would foul the propeller. Fortunately they swung clear and Christensen let him have a fatal shot."

Sometimes the whales get out of range of the 30 fathom harpoon gun and tow a 120-ton steel vessel seven or eight miles.

Juvenile Boy Foresters meet Wednesday night at 7 o'clock sharp.

REBELS DEFEATED

Government Suppresses Uprising and Arrests Leaders

Bangkok, Siam, Oct. 18.—Reports both from the north and the south centres of the insurrection which broke out last week indicated today the government forces have triumphed over the rebels.

In the north, the rebels who attacked Bangkok have fled, while in the south the revolt at Petchaburi has been suppressed. The rebel leader and a number of others were arrested, including high army and civilian officers.

Revoluting Tale of Cruelty Recounted To Police Chief

Montreal, Oct. 18.—Tales of a 12-year-old girl being chained to her bed for two months in her home at Terrebonne, Que., were told to Chief Louis Arguelle, head of provincial detectives for this district, today. The girl, her father and mother and three other children, were at provincial headquarters for questioning.

No charges have been laid against the child's parents, but Chief Arguelle said they would appear as witnesses at a court inquiry tomorrow at St. Jerome. Names were not given.

The children told police their 12-year-old sister had been beaten nearly every night for the past two months, and had been chained to her bed every afternoon on her return from school.

Adventuress Asking Divorce; Is In Reno

Philadelphia, Oct. 18.—Nannie Hope Dale Biddle of Philadelphia, who sought adventure in Alaska's trackless wastes two years ago, is in Reno seeking a divorce. She filed suit yesterday against Edward M. Biddle, charging cruelty.

In December, 1931, the young society matron created a sensation by leaving her three young children and setting out from New York to spend a winter "roughing it" in Alaska.

During her sojourn she was snow-bound several days in an isolated cabin and although an attempt was made to rescue her by plane, she refused any aid. She finally returned to civilization by dog team.
